Next Top Chapter

Are you ready to be the Next Top Chapter (NTC) in California PBL? NTC is an innovative program providing opportunities for local chapters to be recognized and honored for their year of hard work and dedication. Here is your chance to prove your abilities and become the leading chapter in California!

NTC is a program designed to measure your chapter's productivity and serve as an outline for your chapter's Program of Work (POW) and Local Chapter Annual Business Report (LCABR).

Guidelines:

- 1) Activities are divided into the four categories of the LCABR: Chapter Profile, Productivity, Recognition, and Businesslike Procedures.
- 2) Chapter activities to be counted towards NTC must be conducted between the start of the previous State Business Leadership Conference and start of the current State Business Leadership Conference.
- 3) Activities will be tracked monthly, and a point system will be used to tally the achievements of each chapter. The chapter with the most points will be named California PBL's Next Top Chapter for the year.

Recognition:

Chapters will be competing in one of three membership divisions: **small chapters** (chapters with total membership under 35 members), **large chapters** (chapters with total membership over 35 members), and **new/reactivated chapters** (1 year).

The top two chapters in each division will be recognized at the State Business Leadership Conference. Winners receive a monetary award and are considered for California PBL Gold Seal Chapter.

Deadlines:

Submit the NTC Activities Form and all related documents to programs@capbl.org by **11:59 PM on Saturday, March 7, 2015**.
